RE: 220 ILCS/5-8-201.10 MONTHLY COMPLIANCE REPORT - REVISED

Attached is a revised filing for the above public utility's monthly report in compliance with 220 ILCS 5/8-201.10 that reflects data for March 2022.

This compliance report includes only LIHEAP customers as low income. Consumers Gas Company has no way of determining which customers are low income except through our customers receiving LIHEAP.

This last day of the month is used as the end of the period for all classifications.

Consumers Gas Company does not have the reporting software to break down all of the data the report requires for residential and nonresidential.

Consumers Gas Company does not have the reporting software to breakdown billing into zip codes.

Customized reports have been requested from our billing software company. I have asked for completion date projections but no date has been given to us from our software company.

Questions regarding this compliance report can be directed to the following:
